

Certified Organic Soil Amender

Product Description

Significantly improve the quality of existing soils with BOOST, our nutrient-rich, 100% sustainable, certified organic compost soil amender. Made from local, recycled organics, BOOST is ideal for use in food production and it's safe around children and pets.

Certified by the Organic Material Review Institute (OMRI), BOOST is a great choice for organic producers in the Pacific Northwest and beyond. It adds an attractive topdressing to flower and planter beds, and makes an excellent mulch topping. BOOST is also an ingredient in our award-winning UrbanGro Soil.

Product Features

Core Benefits

- OMRI listed components
- Certified organic
- Safe for urban farming applications
- Safe for use around children, pets
- Safe for use in food production
- High levels of available nutrients
- Significantly improves existing soils
